Company Overview

Gulf Coast Aviation Services LLC (GCAS) is an FAA Part 145 Certified Repair Station (1F0R606D) located in Willis, TX. Established in 2018, GCAS is a woman-owned business that leverages over 70 years of combined management experience in the aviation industry. We provide a comprehensive range of aviation services to commercial airlines, private aviation operators, and government entities.

Core Competencies

- **Aircraft and Aircraft Component Repair:**
 - Comprehensive repair services for aircraft and their components.
 - Expertise in addressing both minor and major repairs to ensure airworthiness.
- **Precision Machining and Fabrication:**
 - Custom machining and fabrication services to meet specific client requirements.
 - Utilization of advanced CNC machinery and precision tools.
- **Structures and Sheet Metal Repair:**
 - Expert repair and restoration of aircraft structures and sheet metal components.
 - Services include corrosion removal, crack repair, and reinforcement.
- **Ground Support Equipment Parts and Repair:**
 - Maintenance and repair services for all types of ground support equipment.
 - Expertise in hydraulic, mechanical, and electrical systems.
- **ULD Cargo Container Repair:**
 - Specialized repair services for Unit Load Devices (ULD), ensuring safe and efficient cargo transport.
 - Compliance with IATA and ATA specifications.
- **Non-Destructive Testing (NDT) Services:**
 - Comprehensive NDT services including ultrasonic, radiographic, magnetic particle, and dye penetrant inspections.
 - Detection of material flaws without causing damage to components.
- **Aviation Tooling Repair and Fabrication:**
 - Custom fabrication and repair of aviation tools to ensure operational readiness.
 - Precision calibration and certification services.
- **Galley Equipment Repair:**
 - Maintenance and repair of aircraft galley equipment to ensure safety and functionality.
 - Services include repair of ovens, coffee makers, and refrigeration units.

- **Crew and Passenger Seat Repair:**
 - Expertise in the repair and refurbishment of aircraft seating for crew and passengers.
 - Compliance with FAA regulations and OEM specifications.
 - **Painting:**
 - Professional painting services for aircraft components to meet aesthetic and regulatory standards.
 - Use of high-quality, durable coatings.
 - **AOG (Aircraft on Ground) Services:**
 - Rapid-response AOG services, including cabin and avionics repairs, structural repairs, IFE troubleshooting, seat maintenance, and NDT, to minimize aircraft downtime.
-

Differentiators

- **FAA Part 145 Certification:** Ensures compliance with the highest standards of quality and safety.
 - **Experienced Management Team:** Over 70 years of combined aviation industry experience.
 - **Comprehensive Service Offering:** Wide range of specialized aviation services under one roof.
 - **Customer Focus:** Dedicated to meeting the unique needs of each client with personalized service and attention to detail.
 - **Woman-Owned Business:** Adds value to diversity initiatives and meets certain government contracting requirements.
-

Past Performance

- Successfully completed numerous contracts for major airlines and private aviation companies.
 - Proven track record of delivering high-quality repair and maintenance services on time and within budget.
 - Positive feedback and repeat business from satisfied clients.
-
